  - ◇ Funded positions
  - ◇ Revenue Tracking
- ✓ **MEMBERS**
  - ◇ CVs
  - ◇ Annual Reviews
  - ◇ Contracts
  - ◇ Comp.

**STYLUS Metrics Inc.**

The Academic Medical Member Information System (AM-MIS) is a specially designed software application for the complex academic medical plan environment whether your Plan is structured as a Practice Plan, Ministerial Alternative Relationship Plan, fee-for-service alternate payment plan, or other model variations.

The purpose of AM-MIS is to enable effective financial and information management relevant to Plan members and meet the information reporting needs of Plan executive, committees, and Boards.

AM-MIS has been rigorously developed and uniquely customized to its intended purpose by a team of health professionals with a combined fifty years health sector experience including many engagements with Academic Medical Clients.

On the member level, the AM-MIS functions enable one-stop information management for each Plan member. At the Plan level, AM-MIS enables accurate, complete, and timely management of budgets, positions, reporting, etc.

### STYLUS HEALTH Metrics

- Stylus Health Metrics is committed to long-term support and ongoing development of the AM-MIS as evidenced by:
  - ◆ Upgrades to maintain concurrency with national trends in Physician Plan Models.
  - ◆ Custom modification for unique needs.
  - ◆ Dedicated support line and service.
- Stylus Health Metrics is focused on the Health Sector and is constantly expanding its knowledge base through demanding domestic and international engagements. This knowledge translates to added value for Clients.
- Our health professionals consult to a diverse spectrum of health providers, payors, and financiers. Some recent examples include Alberta Health and Wellness, Faculty of Medicine University of Calgary, The World Bank Group, Community specialist and family practitioners, and four Faculties of Medicine employing our custom AM-Mobile Record System solutions for their Physician Plans.

STYLUS Health Metrics

“Supporting Evidence-based decision making with the right metric for the right job, at the right time.”
